

WINTER SPORTS PROGRAM 2021-2022

Teton School District 401 will provide a Winter Activities program for all Teton High School students. The Winter Activities program has been in place since the late 1960s to take advantage and expose students to the wonderful winter activities that exist in our valley. As principal of Teton High School, I am asking that all students participate and select one of the activities. It is very evident that the social-emotional, educational, and physical wellness value of this program benefited our students greatly. Please note that Winter Activities days are official school days for Teton High School students. Attendance will be taken, and absences will be recorded on students' attendance records the same as other absences.

Winter Sports Activities will be on Wednesday afternoon for four weeks starting on **March 2nd and continuing thru March 23rd**. Registration will be available Monday, February 7th, and cut off Thursday, February 17th. **Currently, this is for information only, not to register.** There are scholarships available, see Mr. Zogg.
